

## **PHYSICAL THERAPIST PRN – HOSPITAL SETTING**

Position available in Portage County in a hospital setting for PRN physical therapists.

The physical therapist will plan and administer prescribed physical therapy treatment to restore function, relieve pain and prevent further disability following injury, surgery or disease. The physical therapist will be responsible for assessment, treatment, discharge planning, electronic documentation, supervision of physical therapist assistants and other related duties.

Portage Physical Therapists will work with candidates to provide a flexible schedule to meet individual needs. Orientation and computer training to insure the therapist is comfortable with hospital procedures and policies will be provided. The therapist will experience a team setting with input available from all therapies.

We offer a competitive PRN rate and can provide a flexible schedule.

### **Qualifications:**

- Graduate from an accredited physical therapist program
- Licensed as a physical therapist by the State of Ohio
- Satisfactory BCI/FBI fingerprint background report
